FOR IMMEDIATE RELEASE

Office of Public Information
Crowder College

Nevada, MO- The Crowder College Nevada Campus held their first Blood Drive on Tuesday, May 3rd; the event was a huge success!

The Level I Nevada Nursing students under the direction of Symantha Helm and Virginia Davis, along with a committed group of committee members worked tirelessly to achieve their goal of 30 units. This was remarkable considering a mobile unit had to be used due to space limitations at our campus.

A second limitation overcome by this group of volunteers was the fact this was their inaugural campaign. Even the donor team expressed admiration for their organization and turn out. The Crowder Nevada students, staff, and faculty were equally enthusiastic in their support. We are all grateful for the TEAM effort and the outcome achieved.

Because of this endeavor, over 90 people will be helped via the blood products produced from the 30 units. Plans are underway to double our space and goal for next year by joining forces with the Nevada R-5, PN program next door.

The Crowder College Nursing Program was established in 2007 offered an Associates of Science Degree in Nursing. Students are qualified to take the Missouri State Board of Nursing Exam for licensure.

For more information on the Nursing program at the Crowder College Nevada campus please contact Karin Baughman, Nevada Nursing Program Coordinator, at (417)667-0518 or e-mail: karinbaughman@crowder.edu
