Associate of Arts

## TEACHING

The Associate of Arts in Teaching degree prepares students to continue their studies at a four-year college, working toward a baccalaureate degree in teaching. Coursework includes four teacher education classes including field experiences in local school districts. Writing, research, and presentation skills will be emphasized in teacher education courses.

Requirements for education preparation programs frequently change in Missouri. Please use this as a general guide to current program requirements. Universities often require a 3.0 GPA to transfer into their teacher education programs. Each semester check with a teacher education advisor as you plan enrollment as well as with an advisor at the university to which you plan to transfer.
