### **Crowder Earth Day Project at Hail Cemetery**

**Neosho, MO** – Crowder College Campus Life has scheduled an Earth Day event, April 21, from 10am-3pm at the Hail Cemetery just north of the Neosho campus. The cemetery dates back to the late 1800s.

“The cemetery is in need of upkeep and we felt that it was something we could do to help. It is not only an Earth day project, but a community service project,” stated Mark Aubuchon, Campus Life Director.

Students may go directly to the cemetery which is located East of Doniphan on Williams Avenue. The BSU will provide a shuttle from the college to the site leaving every 30 minutes from the Arnold Farber building.

Community members may also help the volunteers. Everyone is encouraged to wear outdoor work clothes and bring rakes, gloves, mowers or weed eaters, if they have them.

For more information please feel free to contact our Campus Life Office at 417.455.5644.
