Crowder & Drury Ink Agreement on Programs

Neosho, MO – Crowder College and Drury University signed an articulation agreement today providing students the opportunity to transition several degrees seamlessly into Drury’s Bachelor degree programs in Emergency Management, Organizational Leadership, and Health Services Management.

Degrees that align with the Drury programs include:

Associate of Arts – Business Administration, Computer Science, Information Science, Psychology, and Social Work

Associate of Science – Occupational Therapy Assistant

Associate of Applied Science – Paramedical Science

“We are always looking for articulated opportunities for our students, after graduation with a certificate or Associate Degree, to continue their education and work towards the completion of a Bachelor’s Degree at a University. Working with Drury University offers our students the opportunity to obtain this goal with a quality institution. The faculty and staff at both schools have developed articulation plans to assist the students with seamless transferability between the two institutions,” stated Dr. Glenn Coltharp, Vice President of Academic Affairs.
