CROWDER'S WEBB CITY BUILDING PROJECT ANNOUNCEMENT

WEBB CITY, MO – Crowder College will announce its building expansion project plans on May 7, at 9:00 a.m. at the Webb City location, 600 S. Ellis, Webb City.

The new building will add 22,000 square feet to the current facility. The newly constructed building will include a 9,000 square foot tornado safe room able to withstand an EF-5 tornado. This safe room will provide students, staff and community residents protection from dangerous storms. The safe room will also function as usable classroom space.

Through a generous matching fund donation Crowder College's Webb City Expansion is off to a good start. Details of the donation will be announced at the event. Building plans will be on display as well as naming opportunities for those interested in investing in the educational opportunities Crowder provides.

The building is scheduled to open in the Fall 2014 semester.

Crowder College is a Community College established in 1963 in Neosho, MO. Since that time it has expanded its offerings to a 9-county service district in southwest Missouri.
