

TRAINING & DEVELOPMENT SOLUTIONS

Crowder College Training and Development Solutions (TDS) exists to provide non-credit training for businesses in the four-state area. By understanding your business needs, TDS can provide your businesses with customized training to help strengthen your workforce and gain a competitive edge.

Training is most often initiated by the company. We offer job training, professional development, and continuing education to help boost your business' bottom line. Training can range from a variety of topics such as:

- Leadership & Supervisory Training
- APICS (Certified in Production and Inventory Management)
- Lean Manufacturing
- Quality Assurance & Continuous Improvement
- Safety (OSHA, HAZMAT, HAZWOPER, and etc)
- First Aid, CPR, AED, Blood borne pathogens
- Industrial Maintenance:
 - * AC/DC Electrical
 - * Motor Controls
 - * Robotics
 - * Machining
 - * Programmable Logic Controller
- Blue Print Reading
- Welding
- Workplace skills (team building, soft skills, problem solving, project management, customer service, conflict resolution, computer skills)

This is not a comprehensive list as we customize a variety of classes and professional development plans to meet your company's specific needs.

DOES YOUR COMPANY NEED FINANCIAL ASSISTANCE FOR WORKFORCE TRAINING?

Training & Development Solutions is your local administrator of Missouri One Start Training funds. We can work with your business to secure these funds to transform your new or existing workforce! Working with TDS allows for consolidated training throughout our region saving time and money for your company.

TDS recently relocated to the Joplin Advanced Training and Technology Center, a partnership with the Joplin Chamber of Commerce, City of Joplin and Crowder College. The purpose of the Joplin ATTC is to provide career training in high demand fields, so it made sense to move TDS to a central location to transform into more of a manufacturing hub to service our companies needs more efficiently.

Currently, the TDS is revamping its training programs and would encourage your input as to what training your business would desire offered. You may contact the TDS office at 417.680.3202 or TDS@Crowder.edu for more information.
