Payment must be made in full before a student may enroll in any classes in subsequent semesters or receive a transcript. DUAL CREDIT AND ENROLLMENT

DUAL CREDIT - The Dual Credit Program allows high school students, while still attending their local school, the opportunity to enroll in and receive both high school and college credit during normal class hours. Participation in the dual credit program enables high school students to get a "head start" on their college career as well as prepare them for the challenges of college courses. Credits earned under these programs will be applicable towards a degree at Crowder College and are generally transferable to other colleges and universities.

DUAL ENROLLMENT - The Dual Enrollment Program, allows high school students the opportunity to take classes via online courses, or at any Crowder College campus for college credit. This program also gives motivated, college-bound high school students the "jump start" they need before attending college on a full-time basis. Credits earned under these programs will be applicable towards a degree at Crowder College and are generally transferable to other colleges and universities.

OUR SUCCESS IS YOU.
