

AG EDUCATION

DO YOU LOVE LEARNING ABOUT AGRICULTURE?

AA - Agriculture: Ag Education Option

If you love learning about agriculture, consider a career teaching with an Ag Education degree. To easily transfer to a four-year university, Crowder College offers a two-year program that prepares students by getting them involved in field experiences relating to teaching agricultural education. With a career in Ag Education you may teach in public/private schools at a secondary/post-secondary level. Teaching topics range from agricultural extensions in agriculture to the sales, marketing, and management aspects of agriculture. Additionally, this degree is valuable in all areas of agriculture, pre-veterinary medicine, and wildlife conservation.

WHY CROWDER?

- Transferability of degree to continue education at a four-year institution
- Program faculty have experience in the field
- The Anna and John Williams Agricultural Science Center provides spacious classrooms, laboratories, a library, computer lab, greenhouse, and a welcoming atmosphere
