

AGRONOMY

INTERESTED IN THE SCIENCE OF SOIL MANAGEMENT AND CROP PRODUCTION?

AAS - Agri-Business Technology: Agronomy

AA - Agriculture: Agronomy Option

Are you ready to enter the workforce? Crowder College offers degrees in Agronomy (AAS). In just two years you will be prepared to start your career. Your job may include inspecting products and processing procedures to determine whether products are safe to eat. You may enforce government acts and regulations and explain required standards to agricultural workers. This career can assist farmers by negotiating contracts for the production/purchase of farm products, collect/analyze pollution samples, and provide advice on water quality and issues related to river control, and ground/surface water resources.

WHY CROWDER?

- Crowder has agronomy programs to fit students looking to transfer to continue their education and also fit students looking to enter the workforce directly upon graduation.
- Program faculty have experience in the field
- The Anna and John Williams Agricultural Science Center provides spacious classrooms, laboratories, a library, computer lab, greenhouse, and a welcoming atmosphere
